REGULATIONS

With Which the Subscriber Has Agreed to Comply

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- a. By furnishing references acceptable to the Telephone Company.
- b. By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- c. By means of a cash deposit.

The Telephone Company shall be the sole judge as to whether or not the references or guarantee in writing are acceptable.

The Telephone Company may require an applicant for service to make an advance payment for not to exceed three months' service.

Where the cost of installation is out of proportion to the exchange revenue it produces, the subscriber will be required to pay a reasonable proportion of such cost.

Following the acceptance by the Company of an application for service, the Company assigns a telephone number, but this number is not a part of the contract and may be changed at any time at the discretion of the Company.

To guard against interference with the service, unauthorized attachments with the telephone lines or instruments are prohibited.

For any complete failure of service, of which notice in writing has been sent to the Company's Business Office, and which has continued for more than twenty-four hours thereafter, an abatement of the contract charge shall be made for the period of such interruption.

Where the service of a subscriber is temporarily discontinued and the telephone number is retained during absence on vacation, one-half the regular rental shall be charged during such period, provided written notice of the temporary discontinuance of service is given to the Company in advance.

Denial for Non-payment and Restoral of Service: (a) In the event that any sum due (except as provided in c below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice. (b) In the case of coin box service, if any amounts due are not paid to the collector at the time of collection, a notice will be left at the subscriber's premises stating the amount due and notifying the subscriber that if payment is not made within seven days

thereafter, the Company may deny service without further notice. (c) Special toll bills, which may be rendered at any time by the Company, are payable upon presentation and if not paid at once a notice will be forwarded to the subscriber stating the amount due and notifying the subscriber that if payment is not made within three days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge will be made. In case service has been denied, in addition to the Restoral of Service Charge, the subscriber will be required to pay all service charges up to the time of restoral of service.

Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

Restoral of Service Charge.....\$1.00

Measured Service, where furnished, is billed on a monthly period guarantee basis, the bill for each period to cover (a) the guaranteed charges for one month in advance, and (b) additional messages and toll in arrears. Failure to use the minimum guaranteed number of messages in any monthly period, or the use of messages in excess of such number, does not entitle the subscriber to any allowance in any other monthly period.

One incoming line (one-way service) furnished only for each individual two-way flat rate line or two-way trunk line.

Joint User Service will be furnished only on P. B. X. and individual line service. Only two joint users may be permitted on each two way line.

Four-party Service is furnished only where at least two subscribers within the limits of a single block apply for such service, or where there is a vacancy on an existing circuit.

Two-party Service beyond the established exchange area will be furnished only where two parties outside said area, but within one-quarter mile of each other, apply for service at the two-party rate.

Four-party Service beyond the established exchange area will be furnished only when at least three parties outside said area, who are within a radius of one-quarter mile of each other, apply for the service at the four-party rate.

Rural Service is furnished only where at least two subscribers are secured for each one mile of line built.

INFORMATION ABOUT TELEPHONE SERVICE

How to Use the Telephone

When using the telephone speak distinctly in a moderate tone of voice.

To recall the operator on a Common Battery telephone (one where you signal the operator by merely lifting the receiver from the hook) move the receiver hook up and down slowly three or four times.

On a Magneto telephone (one where you signal the operator by turning a crank) if you wish to recall the operator hang up the receiver and give the handle one quick turn.

Party Lines

All subscribers on the line have equal rights; for that reason calls should be reasonably limited in length of conversation. To make for efficient service and to prevent annoyance to others on the line the following rules should be observed:

When you wish to call, remove the receiver and listen. If the line is in use, restore the receiver to the hook and wait for those using the line to finish.

Always answer your own signal. If there is any confusion about the rings, report the facts to the Supervisor.

Telephone Service Calls

Call "Information" for names not listed in this directory.

Call "Supervisor" to report unsatisfactory handling of your calls.

Call "Repair Service" when your telephone is out of order.

Call your **Business Office**, 9981, for all matters relating to new telephone service, removals, termination of service, directory listings, adjustments of accounts, collection of bills, etc.

Telegrams by Telephone

You may telephone telegrams, cablegrams, or radiograms to the Postal Telegraph Cable Company or Western Union Telegraph Company.

By arrangement with these telegraph companies, the charges for telegraph messages sent by telephone will appear on your monthly telephone bill. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

When calling either of these telegraph companies, follow the instructions shown under its listing in this directory.

LONG DISTANCE TELEPHONE SERVICE

Station-to-Station Service—A station-to-station call is a call to a telephone at an out of town point on which the person calling will talk with anyone who answers at that telephone. Tell the Long Distance operator you will talk with "anyone who answers."

Reduced rates are in effect during the evening and night periods as follows:

Day Rates—4:30 A. M. to 7:00 P. M.

Evening Rates—7:00 P. M. to 8:30 P. M.

Night Rates—8:30 P. M. to 4:30 A. M.

During reduced rate periods no station-to-station rate of less than 35c is reduced nor any rate of more than 35c reduced below 35c.

Person-to-Person Service—A person-to-person call is a call to a particular person or a particular extension telephone on a private switchboard at an out of town point. The rates for this service are the same for all hours and are somewhat higher than corresponding station-to-station day rates.

Reversed Charges—Charges may be reversed on all person-to-person and station-to-station calls. Where the station rate is less than 25c the rate for reversed charge station-to-station service is higher than the station-to-station rate.

Report Charge—A report charge is made if communication cannot be established on person-to-person or Reversed Charge calls for reasons beyond the Company's control.

Call By Number—Calling by number speeds your call. Give the Long Distance operator the name of the place and the telephone number you are calling. If you are making a person-to-person call also give the name of the person with whom you wish to talk. If you do not know the number give the name and address and the number will be furnished by the operator during the completion of the call so that you may make a note of it for future use.

TOLL CALLS HANDLED BY YOUR OPERATOR

Station-to-Station calls to the points shown below are handled by your local operator. It is not necessary to call "Long Distance." Simply give the number desired to your operator who will record and complete the call.

You are still neighbors— *by telephone*

OLD friends may have moved away to a distant city. Many miles may separate you now. But your friendship need not cease, for you are still neighbors. The miles between are easily bridged by telephone. You may visit regularly at very small cost. A visit by telephone is personal, friendly — the next best thing to being there. Don't neglect that friend another day . . . telephone today.

*Day or night we are ready to speed
your voice to a neighboring village
or a far-off corner of the world —
always at a moderate cost.*

ATTEND THE
CENTURY OF PROGRESS
EXPOSITION

● AT CHICAGO

June 1 to October 31, 1933

VISIT THE
BELL SYSTEM EXHIBIT

● In the
Communications Building

It will take you behind the scenes of a telephone central office and show you, by the use of actual working equipment, the various steps in the handling of local and long distance calls.

It will show you how the dial system works.

It will demonstrate the method by which messages typed in one city are instantly reproduced in another.

It will include many other features which show and explain the equipment necessary and the methods employed in providing modern, efficient telephone service.

ILLINOIS BELL TELEPHONE COMPANY

A CENTURY OF PROGRESS

Chicago World's Fair *Centennial Celebration*

THIS Century of Progress Exposition—Chicago's 1933 World's Fair—is a modern venture in every direction. It expresses the creative power of the Twentieth Century. It introduces new architectural design, new building materials and construction processes, new methods of exhibiting, new uses of color and illumination, new types of amusements and new features in scores of other directions.

As its name implies, A Century of Progress Exposition will dramatize mankind's forward movement. It will portray the forces that have made available all our modern conveniences and necessities. It will depict the influence of science on modern civilization. It will show the contrast between living conditions of a century ago and those of today. The story of science will be the centerpiece of the Exposition scheme. Around it, however, will be many other features of absorbing interest.

There will be exhibits telling the story of the origin and development of scores of important industries. Other exhibits will show the resources and attractions of the various states of the Union; outstanding advancements in agriculture in this period; the romance and glamour of foreign lands; the story of the foods we eat; the progress of the medical sciences; demonstrations of home planning, building and housing; new uses of architectural designs; new methods of communication.

The buildings and structures on the exhibit grounds are of almost unbelievable originality.

In the scheme of exhibits of the 1933 World's Fair some significant departures from past expositions are being made. The emphasis will be placed on motion and animation; on processes instead of inert finished products. Wherever possible, moving displays showing products being actually made will be presented.

Thus visitors, instead of seeing row on row of automobiles, will see automobiles being made from the start of the assembly line until the machines are driven off under their own power. They will see articles of clothing fabricated on machines that have almost human skill; they will see everyday electrical devices being manufactured; they will see how steel is fabricated; how electrical power is generated. They will trace, by means of colored lights, the progress of a telephone call through the automatic switching equipment. After dialing a number they will hear it transformed into sound and repeated back to them through a loud speaker.

A Century of Progress Exposition, however, is not only entertaining and instructive; there are lighter features that make it amusing and fascinating. Moreover, every effort to provide for the comfort, convenience and safety of the millions of visitors is being made through the various paid concessions.

Plan to attend the
CENTURY OF PROGRESS AT CHICAGO
JUNE 1ST TO OCTOBER 31ST

"Its easy to find ~
Where to buy it"

To find the telephone number of a
business concern you have in mind—

*First, locate the heading descriptive of the general
type of business. This will be found in its
regular alphabetical order.*

*Next, locate the desired concern and telephone
number by examining the listings under the
heading.*

To find where to buy the article
or service you want—

*First, locate the heading indexed by the name of the
article or service you wish.*

*Then, select from the listings the dealer with whom
you wish to do business.*

Under these headings may also be found
headings descriptive of particular kinds of
articles or services and the dealers in a
position to serve you. The advertisements
provide you with more complete buying in-
formation.

Trademark or brand names will be found
in alphabetical order according to the trade-
mark or brand name, also under the general
business classification.

If further information is desired please
call Barrington 9981, Lake Zurich 9981
or Wauconda 9981

For the Hard of Hearing

A special telephone has been developed by the Bell System for the aid of those with impaired hearing.

Installed in the home or office, it amplifies the volume of sound, making it possible, in many instances, for those who experience difficulty in hearing to hear more easily.

Our Business Office will gladly give further information

Communication Services

TO FIT YOUR PARTICULAR NEEDS

The Illinois Bell Telephone Company has a solution for your communication problem, whether it be in your business or at your home. A partial list of the many time saving and convenient facilities offered for your consideration is shown below.

- TELEPHONE SYSTEMS** for communication between different parts of the office, home or plant.
- EXTENSION TELEPHONES** in another part of the office or home.
- CODE CALLING SYSTEMS** designed to permit the sounding of code signals in various parts of the office or plant. By means of these code signals, persons away from their telephones may be summoned to the nearest telephone to receive a call.
- CONVENIENCE PLANS** to provide greater flexibility in making or answering calls on one or more lines and with intercommunicating and secrecy features.
- TELEPHONE TYPEWRITER SERVICE** for instantaneous communication of typewritten messages between offices in the same building, in the same city or in different parts of the country.
- LOUD RINGING BELLS** for locations where noise makes it difficult to hear the ordinary telephone bell.
- EQUIPMENT** for the reception of telephone orders with speed and efficiency.
- ESPECIALLY EQUIPPED TELEPHONES** for those who have difficulty in hearing over an ordinary telephone.

A telephone call to our Business Office, will bring a representative who will gladly discuss with you your own particular communication problems.
