At Your Elbow

OUR obligation as a public utility requires that we make every effort to furnish service to all who apply. In doing this we constantly add to the value of our service to old subscribers by extending their range of communication. Cost levels to-day are much higher than in the past and result in more expensive plant construction, thus increasing our average capital investment per telephone, upon which a fair return in interest and dividends must be earned.

FROM the telephone on your desk or in your home it is possible to reach any one of more than 15,000,000 other telephones in the United States and Canada. It will pay you to use the service regularly, not merely in emergencies.

Get acquainted with the money and time saving features of our station-to-station long distance service. The evening rate for station-to-station calls is about 50 per cent less than the day rate, and the night rate (midnight to 4:30 a.m.) about 75 per cent less than the day rate.*

ILLINOIS BELL TELEPHONE COMPANY

**Minimum reduced rate is 25 cents*

Two-Fisted Men

OUR obligation as a public utility requires that we make every effort to furnish service to all who apply. In doing this we constantly add to the value of our service to old subscribers by extending their range of communication. Cost levels to-day are much higher than in the past and result in more expensive plant construction, thus increasing our average capital investment per telephone, upon which a fair return in interest and dividends must be earned.

EACH telephone is connected to the central office by two tiny wires. These wires are a part of a system of cables, coils and other delicate apparatus, which must be kept in careful adjustment.

The job of building and maintaining this equipment is done by two-fisted men—men who think in terms of never failing service. When they come into your home or your office, you find them anxious to do their work quickly, efficiently, courteously and neatly.

ILLINOIS BELL TELEPHONE COMPANY

BELL SYSTEM

One Policy - One System - Universal Service

GENERAL INFORMATION

When using the telephone speak distinctly in a moderate tone of voice with lips close to the mouthpiece.

Answer your bell promptly but do not remove the receiver from the hook while the bell is ringing. It may interfere with the signals.

To recall the operator or when through talking, hang up the receiver and give the handle one sharp turn.

Call by telephone number, not by name.

Call "Information" for names not listed

Call "Chief Operator" to report unsatisfactory handling of your calls.

Call "Repair Clerk" when your telephone is out of order.

LONG DISTANCE TELEPHONE SERVICE

To make a "Toll" or "Long Distance" call, call the operator the usual way and ask for "Long Distance."

The Long Distance operator will give information and quote rates to any point desired.

Bell Telephone lines reach cities, towns and villages throughout the United States.

Calls to the Following Places are Toll Calls

and are handled by Your Operator as "Station-to-Station" calls.

Proceed the same as when making a local call.

Clear It Up By Long Distance

When in the daily course of business a question arises which requires information or a decision from some person not in town, turn to the long distance telephone. No matter how far away this man may be he can usually be reached in a short time over Bell lines.
